

ACHIEVE YOUR GOALS FASTER WITH ARCHITECT SERVICES

At Appian, our priority is to help you build powerful applications fast. Architect Services equips your team with Architects that have deep product expertise to accelerate development, get your team up and running fast and ensure you get the most from your investment.

BENEFITS

- Increase development speed
- Define the right governance to scale with confidence
- Proactively identify risks
- Overcome obstacles impeding your team
- Drive adoption with modern and intuitive applications
- Expand the skill set of your Appian developers

FEATURES

We focus on five fundamental areas to expand your team's capabilities and accelerate your success:

ARCHITECTURE PLANNING

Optimize Appian architecture to better align with your business strategy and vision

HOW TO?

Take advantage of Appian's newest features and emerging technologies such as Artificial Intelligence and Machine Learning

GOVERNANCE

Scale your program confidently by standing up a Center of Excellence

DEVELOPER UPSKILL

Accelerate your team's capabilities through solution design guidance, targeted application reviews, and on-demand troubleshooting

HEALTH MONITORING

Ensure applications are running smoothly with Health Check and performance tuning

SUCCESS MANAGER

Architect Services customers have a dedicated success manager who works with your team to understand your business and provides guidance on the best way to leverage the service.

ACCOUNT ARCHITECT

Your team will also be assigned an Architect with extensive Appian implementation experience who will understand your implementation and guide you at every step.
