

The Economic Impact of Appian: A Forrester Study

Is a low-code automation platform really worth it? Forrester says 'Yes.' Find out why.

Appian helps enterprises achieve:

17x

accelerated application development.

50%

lower development costs.

\$13.42M

in savings over three years.

7,800

employee hours saved in one department.

More Appian benefits:

Open Platform

Automate workflows among multiple applications.

Scalability

Meet growing customer needs without growing costs.

Flexibility

Reduce the need for specialized skills for specific work.

Something that used to take us five weeks to develop, we can now develop by tomorrow using Appian.

CIO, Financial Services

Automating this workflow is saving us 20 days of work or more per employee.

Delivery Manager, Professional Services
