

## 6 key advantages of eliminating manual document processing.

With IDP, automation and AI combine to automate document processing for multiple use cases.

1

**Greater efficiency and cost savings** by dramatically reducing the need for human interaction.

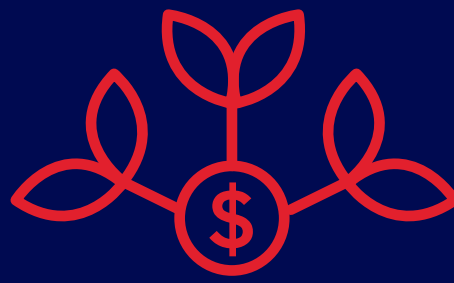

2

**Higher accuracy with lower error rates** through an AI/ML system that is continuously learning.

3

**Increased revenues** due to IDP multiplying the speed of invoice processing.

4

**Better regulatory compliance** due to fewer errors in highly regulated areas such as revenue recognition.

5

**Higher customer satisfaction** through the delivery of faster, more accurate information and improved customer services.

6

**Higher employee satisfaction and productivity** by freeing workers from rote, repetitive tasks to more rewarding work.

a
